

# SMOKE ALARM BATTERY POWERED

## BATTERY POWERED SMOKE ALARMS 1YR AND 10YR MODELS

Emerald's Battery Powered Smoke Alarms are powered by either a 1 year 9V replaceable battery or 10 year non-replaceable lithium battery.

These are stand-alone alarms, fitted with a test/hush/silence button to facilitate testing of the alarm. The silence function allows the alarm to be silenced in the case of a false alarm.

### FEATURES

- 1 year replaceable 9V battery or 10 year non-replaceable lithium battery
- Indicator lights for test and fault warnings
- Hush function
- Loud alarm - 85dB(A) @ 3m
- Meets Australian Smoke Alarm Standards (AS3786:2014)
- 10 year warranty
